End Application:

Airbourne pro

Special Features:

Operating voltage 5 to 140 vac; dc input turn-on 5 milliamps; output operating voltage range 5-140; normally open relay of 1 amp rating with zero voltage turn-on and zero current turn-off; dimensions: length 0.850 inches ; width 0.265 inches ; height 0.190 inches ; 2 power integrated circuits are mounted on a ceramic substrate and connected in inverse parallel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
