End Application:

4920-01-224-8880 test stand, elec

Special Features:

Dpdt; contact rating: ac: 7.0 amps resistive at 120.0 vac, dc: 3.0 amps resistive at 30.0 vdc; 8 pin terminals; mounting: plug-in octal base, mounts in any position; housing: dust, moisture, and impact-resistant molded plastic case; dimensions: length 3.250 inches , width 2.000 inches , height 2.000 inches ; timing begins when start switch is closed, capacitor immediately begins to charge through a fixed resistor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
