End Application:

F16aircombf1t

Special Features:

Sealed, optically isolated, short circuit protected; output transient voltage 600.0 vdc max; case temperature negative 55.0 degrees celsius to positive 100.0 degrees celsius; terminals, 5 wire leads; dimension, length 0.375 inches max; width 0.335 inches max; height 0.275 inches max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
