End Application:

Used in shore time panel onboard 378 ft whec coast guard vessels

Special Features:

Phase failure delay nom voltage 120 v, 60 hz; voltage drop-out 75% - 100% of nom voltage; adjustable; pickup to dropout differential 3% approx; operating temp -20/+70 degrees c with drift of porm 1%; time delay 0 to 3.5 sec; output contacts one set normally openm; contact rating 10 amp at 28 vdc resistive; 10 amp at 230 vac resistive; solid state sensor w/relay output in a sealed can

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
