End Application:
F15e cbil
Criticality Code Justification:
Feat
Special Features:
Rated voltage: 26.5 vdc; contact arrangement: dpdt; amps: 1.0 resistive at 28.0 vdc; coil resistance: 1, 560 ohms; dimensions: length
0.398 inches , diameter 0.335 inches ; terminals: 0.370 inches , wireleads 10; hermetically sealed; established reliabili type 0.100 percent
fialure rate
Specification Data:
81349-mil-r-28776/1 government specification
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
