End Application:

F15e cbil

Criticality Code Justification:

Feat

Special Features:

Rated voltage: 26.5 vdc; contact arrangement: dpdt; amps: 1.0 resistive at 28.0 vdc; coil resistance: 1, 560 ohms; dimensions: length 0.398 inches , diameter 0.335 inches ; terminals: 0.370 inches , wireleads 10; hermetically sealed; established reliability type 0.100 percent failure rate

Specification Data:

81349-mil-r-28776/1 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
