End Application:

B-1bose 14g35

Special Features:

input voltage rating of 3.0 to 32.0 vdc; turn-on and turn-off time of 10.0 msec; power factor load is .4 watts; line frequency 47.0 to 63.0 hertz; line voltage 250.0 vac; load current of 40.0 arms; dimension: length 2.250 inches, width 1.750 inches, height 0.875 inches; mounted by two unthreaded holes spaced 1.875 inches apart with a diameter of 0.187 inches; 4 screw terminals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
