Overall Length:

2.550 inches

Overall Height:

1.030 inches

Overall Width:

1.500 inches

Cubic Measure:

3.940 cubic inches

End Application:

4920-01-218-4171 test station, fuel control system compone

Usage Design:

Type dpdt ha, ht, and htm relays

Supporting Object/surface Attachment Method:

Two unthreaded holes for no. 4-40 screws spaced 1.180 inches nom parallel to width

Material:

Plastic and steel

Material:

Plastic and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T08100
