## NSN 5945-01-348-2882

Solid State Relay - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5945-01-348-2882

## **Special Features:**

Hermetically sealed, optically isolated; blocking voltage 80 vdc; continuous operating output voltage 60vdc; input current at 5v l6ma; rated turn-in voltage: 5.0 vdc; turn-off voltage: 1.5vdc; load current rating 1.35 amps; continuous operating output voltage: 60vdc; vibration: 100g; shock 1500g; acceleration 5000g; weight: 5.3 grams; relays may drive loads connected to either positive or negative referenced power supply lines; dimensions: length 0.890 inches, width 0.490 inches, height 0.190 inches; terminals: 5 pins; reversing polarity of output may cause permanent damage to the power fet output stage
