

View Online at <https://aerobasegroup.com/nsn/5945-01-349-5477>

Special Features:

Spstno; hermetically sealed; input voltage range: 4.0 vdc to 7.0 vdc; turn on time: 10.0 microseconds; turn off time: 15.0 microseconds; operating temperature: negative 55.0 degree celsius to positive 125.0 degree celsius; input current: 22.0 ma dc max; power dissipation: 260.0 milliwatts; 4 wire lead terminals; dimensions: length 0.275 inches max, diameter 0.370 inches max

Specification Data:

81349-mil-r-28750/6 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
