Overall Length:

21.750 inches

Overall Width:

9.750 inches

End Application:

An/fpn-44a/b

Usage Design:

Used to discharge high voltage capacitors in the transmitter

Controlling Agency:

Ross engineering corp

Identifying Number:

E-40-nc-2-1 model no. And e25-nc-2-1 model no.

Individual Relay Quantity:

2

Relay Type:

Time delay

Special Features:

10 terminals, barrier type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-b
