Overall Length:

1.718 inches

Overall Height:

1.010 inches

Overall Width:

1.025 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Voltage Rating:

20.0 volts control and 30.0 volts control

Current Rating:

15.00 milliamperes control

Features Provided:

Hermetically sealed

Time Delay:

2.00 seconds delay and 20.00 seconds delay

Precious Material And Location:

Terminal gold

Terminal Type And Quantity:

14 pin

Specification Data:

81349-mil-prf-83726/31 government specification

Specification Or Standard:

2 type and b class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310

Mil-std (military Standard):

Mil-prf-83726 spec.
