Overall Length:

3.320 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

1.655 inches single mounting facility

Overall Height:

2.380 inches

Overall Width:

2.500 inches

Unthreaded Mounting Hole Diameter:

0.188 inches single mounting facility

Contact Material:

Silver

Winding Quantity:

1

Purpose For Which Designed:

General

Coil Quantity:

1

Winding Dc Resistance Rating:

64.0 kilohms single winding

Duty Type:

Continuous

Mounting Facility Type And Quantity:

2 unthreaded hole single mounting facility

Storage Type:

General purpose warehouse

Mounting Facility Pattern:

In-line single mounting facility

Operating Voltage Rating And Type At Specificationified Temp:

24.0 volts dc 25 degrees celsius single winding

Main Contact Load Current Rating At Maximum Rated Voltage:

30.0 milliamperes dc resistive load

Energizing Element Power Rating:

2.0 watts

Precious Material And Location:

Contacts silver

Precious Material:

Silver

Terminal Type And Quantity:

6 screw all functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03300
