Overall Length:

1.718 inches

Overall Height:

1.010 inches

Overall Width:

1.025 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

1190-01-314-2370

Voltage Rating:

20.0 volts operate and 30.0 volts operate

Contact Arrangement:

Double pole, double throw

Current Rating:

150.00 milliamperes input

Features Provided:

Electromagnetic interference shielding and hermetically sealed and shock resistant and vibration resistant

Time Delay:

20.00 seconds operate

Terminal Type And Quantity:

14 pin

Specification Data:

81349--83726/30-2002p government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310

Mil-std (military Standard):

Mil-prf-83726 spec.
