Overall Length:

2.250 inches

Overall Height:

0.950 inches

Overall Width:

1.750 inches

Operating Temperature Range:

-20.0/+80.0 degrees celsius

End Application:

6625-01-278-6404

Voltage Rating:

3.0 volts control and 32.0 volts control

Current Rating:

25.00 amperes on-state

Features Provided:

Optically isolated

Time Delay:

100.00 microseconds turn-on

Special Features:

This unit operation is normally conducting with no input control voltage.

Terminal Type And Quantity:

4 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A513k0
