Overall Length:

3.750 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

3.250 inches single mounting facility

Center To Center Distance Between Mounting Facilities Parallel To Width:

1.500 inches single mounting facility and 2.000 inches single mounting facility

Overall Height:

3.000 inches

Overall Width:

2.500 inches

Mounting Slot Width:

0.210 inches single mounting facility

End Application:

Fire fighting

Frequency In Hertz:

60.0

Coil Quantity:

1

Mounting Facility Type And Quantity:

4 slotted hole single mounting facility

Mounting Facility Pattern:

Rectangular single mounting facility

Operating Voltage Rating And Type At Specificationified Temp:

240.0 volts ac 25 degrees celsius single winding

Special Features:

Heater relay

Terminal Type And Quantity:

8 tab w/screw all functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03300
