Overall Length:

1.700 inches

Overall Height:

1.250 inches

Operating Temperature Range:

-30.0/+70.0 degrees celsius

Voltage Rating:

5.0 volts control and 60.0 volts control

Current Rating:

2.00 amperes control and 3.00 amperes control

Features Provided:

Hermetically sealed

Time Delay:

50.00 microseconds turn-off

Special Features:

Isolation input to output 4000.0 vrms; output voltage drop peak 1.6 volts; logic dropout voltage 1.0v; logic pickup voltage 18.0v; control resistance 2.2 kilohms

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A513k0
