Overall Length:

4.500 inches

Overall Height:

2.030 inches

Overall Width:

2.000 inches

Current Rating:

150.000 milliamperes

Voltage In Volts And Current Type:

150.0 dc

Material:

Nickel

General Description:

9can finish silver; six wire leads, 20 awg; input voltage 115/200 vrms; , 3-phase wye; operating current 80ma maximum each phase; operating frequency 400hz; output form spst, normally open; operating temperature minus 55.0 degrees c to plus 71.0 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
