Operating Temperature Range:

-20.0/+80.0 degrees celsius

Voltage Rating:

3.0 volts control and 32.0 volts control

Current Rating:

90.00 amperes surge

Special Features:

Back to back (dual) scr output for severe inductive loads, superior false turn-on immunity and positive turn-off at high dv/dt

Terminal Type And Quantity:

4 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
