Overall Length:

3.500 inches

Overall Width:

2.500 inches

Operating Temperature Range:

-40.0/+65.0 degrees celsius

End Application:

Panel, control p/n 44352

Voltage Rating:

120.0 volts input

Current Rating:

10.00 amperes resistive

Time Delay:

0.60 seconds delay and 60.00 seconds delay

Special Features:

0.250 in. Male quick connect terminals; adjustment knob on unit

Terminal Type And Quantity:

10 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
