**Overall Length:**

2.850 inches

**Overall Height:**

3.500 inches

**Overall Width:**

2.050 inches

**Operating Temperature Range:**

+32.0/+140.0 degrees fahrenheit

**End Application:**

Water sewage treatment plant, b/g 15mx3-1.C

**Voltage Rating:**

10.0 millivolts input and 200.0 volts input

**Current Rating:**

1.00 milliamperes input and 100.00 milliamperes input

**Special Features:**

0.62 lbs. Weight; single/dual trip (2 spdt, 5a); field configurable input ranges for dc voltage and current; programmable hi or lo setpoints; dynamic deadband prevents false trips; selectable failsafe/latching operation; led trip indicators; selectable 120/240vac operation

**Terminal Type And Quantity:**

11 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A513k0
