Overall Length:

2.850 inches

Overall Height:

3.500 inches

Overall Width:

2.050 inches

Operating Temperature Range:

+32.0/+140.0 degrees fahrenheit

End Application:

Water sewage treatment plant, b/g 15mx3-1.C

Voltage Rating:

10.0 millivolts input and 200.0 volts input

Current Rating:

1.00 milliamperes input and 100.00 milliamperes input

Special Features:

0.62 lbs. Weight; single/dual trip (2 spdt, 5a); field configurable input ranges for dc voltage and current; programmable hi or lo setpoints; dynamic deadband prevents false trips; selectable failsafe/latching operation; led trip indicators; selectable 120/240vac operation

Terminal Type And Quantity:

11 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
