Overall Length:

2.765 inches

Overall Height:

3.156 inches

Overall Width:

0.687 inches

Voltage Rating:

240.0 volts supply

Contact Arrangement:

Single pole, double throw

Current Rating:

1.00 milliamperes input

Features Provided:

Shock resistant and vibration resistant

Time Delay:

0.05 seconds delay

Special Features:

Six time delay setting ranges from 0.05 seconds to 10.0 h

Terminal Type And Quantity:

6 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310
