Overall Length:

0.475 inches

Overall Height:

0.295 inches

Overall Width:

0.375 inches

Operating Temperature Range:

-65.0/+125.0 degrees celsius

Voltage Rating:

5.0 volts coil and 5.6 volts coil

Contact Arrangement:

Double pole, double throw

Current Rating:

114.90 milliamperes inductive and 82.20 milliamperes inductive

Special Features:

The magnetic-latching feature provides a "memory" capability, since the relays will not reset upon removal of power

Precious Material And Location:

Contacts gold

Terminal Type And Quantity:

10 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310
