Overall Length:

3.500 inches

Overall Height:

2.1250 inches

Overall Width:

2.500 inches

Operating Temperature Range:

-30.0/+60.0 degrees celsius

Voltage Rating:

24.0 volts supply

Contact Arrangement:

Three pole, double throw

Special Features:

Energized on high, none time on delay, trip range .11-0.1 to 1.0 aac, electromechanical relay output, trip point dial calibrated

Terminal Type And Quantity:

3 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51310
