Overall Length:

4.380 inches

Overall Height:

2.750 inches

Overall Width:

3.750 inches

Operating Temperature Range:

-40.0/+85.0 degrees celsius

End Application:

An/tsq-13 (v) , control & communication subsystem; wsd: radar & iff systems

Voltage Rating:

115.0 volts operate

Current Rating:

10.00 amperes resistive

Time Delay:

250.00 milliseconds operate and 10.00 seconds operate

Special Features:

X3 spdt; 6.0 amp load inductive; 3 phase; 60 hertz; mounting: 4 unthreaded holes, 0.156 in. Dia, spaced 2.750 in, nom. Apart parallel to width, 4.875 in. Nom. Apart parallel to length; complete pn: 10936 (92/130)(3/1)(48/72)(2/2) 115

Terminal Type And Quantity:

1 connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
