End Application:

V22 aircraft

Voltage Rating:

20.0 volts operate and 30.0 volts operate

Contact Arrangement:

Double pole, double throw

Current Rating:

10.00 amperes resistive

Criticality Code Justification:

Agav

Terminal Type And Quantity:

14 pin

Specification Data:

81349--83726/28-1103 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51310
