**End Application:**

V22 aircraft

**Voltage Rating:**

20.0 volts operate and 30.0 volts operate

**Contact Arrangement:**

Double pole, double throw

**Current Rating:**

10.00 amperes resistive

**Criticality Code Justification:**

Agav

**Terminal Type And Quantity:**

14 pin

**Specification Data:**

81349--83726/28-1103 government specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A51310
