Overall Length:

5.500 inches

Overall Width:

3.900 inches

End Application:

Test station, electrical-electronic equipment

Mounting Configuration:

Two tapped 6 - 32 holes in base

Component Type And Quantity:

1 capacitor and 1 cover and 12 microcircuit and 1 printed wiring board and 1 housing

Product Name:

Relay logic module

Special Features:

Fifteen switchpoints

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A5110
