Overall Length:

3.000 inches

Overall Height:

1.615 inches

Overall Width:

2.000 inches

Operating Temperature Range:

-20.0/+80.0 degrees celsius

Voltage Rating:

120.0 volts input

Time Delay:

30.00 seconds input and 1000.00 seconds input

Special Features:

Part name assigned by manufacturer - digital encapsulated time delay module

Terminal Type And Quantity:

4 insulated wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A513k0
