End Application:

MOTO-RG-ENE-RATO

Main Contact Maximum Voltage Rating In Volts:

120.0 ac

Special Features:

100 ohm platinum rtd; 269 plus microprocessor based product; monitors the rotor and stator winding temperatures and shuts off the motor when thermal units are exceeded; individual settings for temperature monitoring functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
