Environmental Protection:

Shock proof and vibration resistant

End Application:

Tornado

Duty Type:

Continuous

Auxiliary Contact Load Current Rating At Maximum Rated Voltage:

5.0 amperes dc resistive load

Product Name:

Two pole full size crystal can relay

Special Features:

Bifurcated hardened silver alloy, stationary and gold pated hardened silver alloy, moveable contact material; 50million operation life expectancy; 1.8vdc to 110 vdc coil voltage; 1.5 watts at 25 degrees celsius coil power; 250mw pick up sensitivity; 5ms operating time

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03300
