Body Style:

Cylindrical frame

Body Diameter:

1.620 inches

Body Length:

3.440 inches

Terminal Location:

Top edge

Mounting Facility Type And Quantity:

2 threaded hole

Energizing Stroke Maximum Length:

1.000 inches

Product Name:

P610 series solenoid

Special Features:

Net pull force pounds: 13, net hold force pounds: 16.5, maximum stroke inches: 1.00, voltage: 24vdc, coil resistance ohms: .96/49.5, pull in amps: 25, hold amps: .48

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A134a0
