**Overall Length:**

1.718 inches

**Overall Height:**

1.010 inches

**Overall Width:**

1.025 inches

**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Voltage Rating:**

20.0 volts input and 30.0 volts input

**Contact Arrangement:**

Double pole, double throw

**Current Rating:**

8.00 amperes inductive

**Features Provided:**

Hermetically sealed and shock resistant and vibration resistant

**Time Delay:**

0.15 seconds turn-on

**Terminal Type And Quantity:**

14 pin

**Specification Data:**

81349 - mil-prf-83726/28 government specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51310

**Mil-std (military Standard):**

Mil-prf-83726 spec.
