Overall Length:

2.290 inches

Overall Height:

1.060 inches

Overall Width:

1.750 inches

Operating Temperature Range:

-40.0/+100.0 degrees celsius

End Application:

Usm-636 cass; radar sets; aircraft, hornet f/a-18e/f

Voltage Rating:

5.0 volts input and 30.0 volts input

Special Features:

Applications: heating & motor controls; uninterruptible power supplies; light dimmers; industrial and process control; on/off controls of ac equipment. Designed for all types of loads

Terminal Type And Quantity:

4 tab w/screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A513k0
