Overall Length:

2.300 inches

Overall Height:

1.300 inches

Overall Width:

1.800 inches

Operating Temperature Range:

-40.0/+80.0 degrees celsius

End Application:

Wsd: nuclear power plants

Voltage Rating:

24.0 volts output and 280.0 volts output

Current Rating:

0.15 amperes resistive and 25.00 amperes resistive

Time Delay:

50.00 milliseconds turn-on

Special Features:

Mounting hole/slot base plate 0.170 diameter & 0.125 slot at 1.870 inch center to center to length

Terminal Type And Quantity:

4 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
