Overall Length:

4.600 inches

Overall Height:

1.225 inches

Overall Width:

2.600 inches

End Application:

Misc electric plant general inls 2007

Special Features:

Monitors 24 volt system, detects low voltage, relay operates to interrupt load when voltage drops off, automatic reset when voltage rises.

Input 20 to 30 vdc, input amps .020 amps relay deenergized .10 amps energized. Non-weatherproof polypropylene, weigh

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A513I0
