End Application:
Weapon system: communications and data sustem
Coil Quantity:
1
Special Features:
End item: ic/msb-2 (v)5 microphone control station, coil type high sensitive, coil voltage is 48vdc, contact form spdt, contact rating is 5 amps
this is a general purpose relay with flag
Precious Material And Location:
Contacts silver
Precious Material:
Silver
Shelf Life:
N/a
Unit Of Measure:
- -
Demilitarization:
No
Fiig:
