End Application:

Joint tactical information distribution system (jtids); airborne communications equipment

Accommodated Item Securing Device Type:

Threaded base

Product Name:

Connector dst-jcl2

Special Features:

length-3.500 in., outside dia-1.625 in., ventilated opening length-2.891; style-ventilated; name on dwg-enclosure body (spi shell g&h connector sizes); pc boar (relay) fits inside

Material:

Aluminum alloy 6061

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A062a0
