Overall Length:

12.220 inches

End Application:

Navistar

Voltage Rating:

24.0 pounds per hour wet operate

Current Rating:

1.88 amperes input and 2.07 amperes input

Criticality Code Justification:

Agav

Special Features:

Exhaust type bracket included with this relay assembly

Terminal Type And Quantity:

4 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513k0
