End Application:

2355-01-567-4930

Special Features:

Flux tight enclosure style; 2700 ohms resistor in parallel; single pole double throw; 24v = 49.6 rated current at 23 degrees celcius = 483 coil resistance; operating temperature range -40 to +155 degrees celcius; insulation resistance 20mohms mi (dc 500v)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
