Voltage Rating:

600.0 volts supply

Special Features:

Solid state; full load current 1.00 to 5.00 amps; trip class 30.0; motor/load phase single or three; motor voltage 600.0v; control voltage 600.0v; contract current 90 amps; automatic reset; ambient temperature compensation; phase failure; tripped optical indicator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51310
