Overall Length:

3.000 inches

Overall Height:

1.250 inches

Overall Width:

1.550 inches

End Application:

72kw generator

Mounting Facility Type And Quantity:

2 unthreaded hole first mounting facility

Main Contact Maximum Voltage Rating In Volts:

24.0 dc

Product Name:

Interlock timer relay

Special Features:

Relay closes output contacts after application of 24 vdc for adjusted time delay. Output contacts open if 24 vdc is not present after time delay. The contact rating is 25 amps.

Terminal Type And Quantity:

4 quick disconnect, male all functions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03300
