**Overall Length:**

3.000 inches

**Overall Height:**

1.250 inches

**Overall Width:**

1.550 inches

**End Application:**

72kw generator

**Mounting Facility Type And Quantity:**

2 unthreaded hole first mounting facility

**Main Contact Maximum Voltage Rating In Volts:**

24.0 dc

**Product Name:**

Interlock timer relay

**Special Features:**

Relay closes output contacts after application of 24 vdc for adjusted time delay. Output contacts open if 24 vdc is not present after time delay. The contact rating is 25 amps.

**Terminal Type And Quantity:**

4 quick disconnect, male all functions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A03300
