Overall Length:

4.900 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

1.500 inches first mounting facility

Overall Height:

1.042 inches

Overall Width:

2.000 inches

Unthreaded Mounting Hole Diameter:

0.147 inches and 0.157 inches first mounting facility

Mounting Facility Type And Quantity:

4 unthreaded hole first mounting facility

Special Features:

End item: used in testing data buses mil-std-1553, connectors: data-trompeter (3plcs), case and cover material: 0.025 thick rooled steel, hot tin-dipped, paint: light blue semigloss per tt-e-529, mounting surface not painted, coil voltage: 28vdc, resistance ohms: 500vac, contact arrangement: 2p2t, insertion loss: .25dbmax

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03300
