Ac Voltage Rating:

Between 24.0 volts and 240.0 volts

End Application:

Airroute surveillance radar, 4 (arsr4)

Adjustability:

Adjustable

Flashing Rate:

Between 10 per minute and 100 per minute

Special Features:

Flasher 24-240vac 1 a 10-100fpm 2x2; the fsu1000 incorporates an onboard adjustable flash rate of 10 to 100 flashes per minute and a universal input voltage in one device; its circuitry is encapsulated and is capable of controlling loads of up to 20 a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T142-m
