Ac Voltage Rating:

24.0 volts

Dc Voltage Rating:

24.0 volts

Function For Which Designed:

Control

End Application:

Pnael, control

Output Current Rating:

24.0 ac volt-ampere and 24.0 dc volt-ampere

Product Name:

Monitoring safety relay w/delayed output

Special Features:

: configured automatic/manual or manual monitored reset; relay model selected: msr138.1dp

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A545e0
