	eliability Indicator: ot established
	nductance Rating:
	00.00 microhenries single component single primary and 3.60 millihenries single component single primary
	oil Form Type:
	ollow single component
	djustment Device Drive Type:
	lotted screw single component
	ody Length:
	.625 inches
	ody Outside Diameter:
	.750 inches
	nclosure Type:
	lounting Method:
	hreaded bushing single group
	/inding Function And Quantity:
	primary single component hread Size:
	.250 inches single group
	djustment Method And Quantity:
	adjustable core single component
	hread Series Designator:
	nc single group
	erminal Type And Quantity:
	tab, solder lug
	helf Life:
N/	
	nit Of Measure:
D	emilitarization:
	es - demil/mli
	iig:
	058b0
