**Reliability Indicator:**

Not established

**Overall Length:**

1.125 inches

**Overall Height:**

0.610 inches

**Overall Width:**

0.781 inches

**Input-output Phase Relationship:**

Single phase to single phase single component

**End Application:**

Transient current detector 66660-507-31

**Inclosure Type:**

Fully enclosed

**Mounting Method:**

Terminal single group

**Winding Function And Quantity:**

1 primary and 2 secondary single component

**Terminal Type And Quantity:**

9 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
