**Reliability Indicator:**

Not established

**Input-output Phase Relationship:**

Single phase to single phase single component

**Winding Shielding Method:**

Core grounded single component

**Inclosure Type:**

Fully enclosed

**Mounting Method:**

Terminal single group

**Winding Function And Quantity:**

1 primary and 1 secondary single component

**Terminal Type And Quantity:**

5 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
